## About Us

# India's Leading Solar EPC Company

VMD Solar Energy Pvt.Ltd is a reputable company in market it provides the best services related to Solar Energy

### Reliability

Since solar energy's widespread adoption, it's proven itself as a reliable energy source over fossil fuels.

### Efficiency

We provide efficiency rating between 11 and 15 percent, which is the percentage of solar energy that is being converted into useable electricity.

### Saving Money

Solar panel systems will save you money and bring a return on your investment in no time.

### Innovative Solar Farms

We provide the innovations needed to advance wind systems, reduce the cost of electricity, and accelerate

# Our Products

## SOLAR PV MODULE

Photovoltaic modules, commonly known as solar panels, are a web that captures solar power to transform it into sustainable energy.

## SOLAR WATER HEATER

Solar water heaters sometimes called solar domestic hot water systems can be a cost-effective way to generate hot water for your home. They can be used in any climate, and the fuel they use sunshine is free

## SOLAR STREET LIGHT

Deploying solar street lights on a city's main roads, streets and in other public places makes them easier to access

## SOLAR ROOF TOP

The solar power generated from the rooftop solar system charges the battery which is then used to power various applications.

## SOLAR SUBMERSIBLE PUMP

The recent technology developments and cost decline in solar PV has made it an attractive proposition to run your existing submersible pump on solar.

## INDUSTRIAL/COMMERCIAL EPC SOLAR

In solar industry EPC term is used for providing end-to-end solar services from designing the system, procuring the components and installing the

## SOLAR GROUND MOUNTED PPA PROJECT

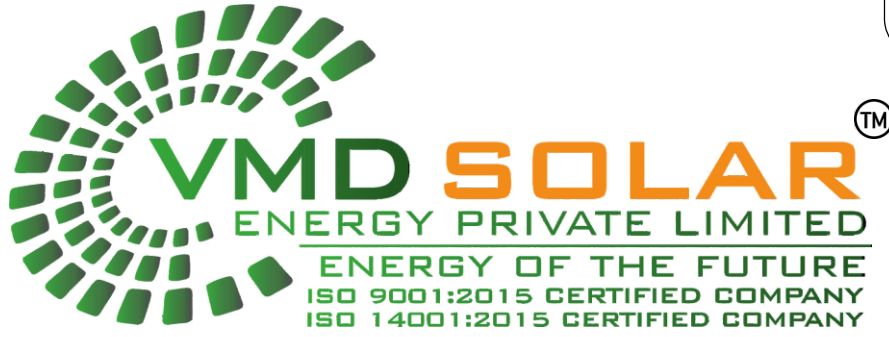

A solar power purchase agreement (PPA) is a financial agreement where a developer arranges for the design, permitting, financing and installation of a solar energy system on a customer's property at little to no cost.

## SOLAR LEDs LIGHT

Solar-powered lights stop producing energy at night, so the photoresistor, which detects the absence of light, activates the battery, which turns the LED light on.
